SAFES

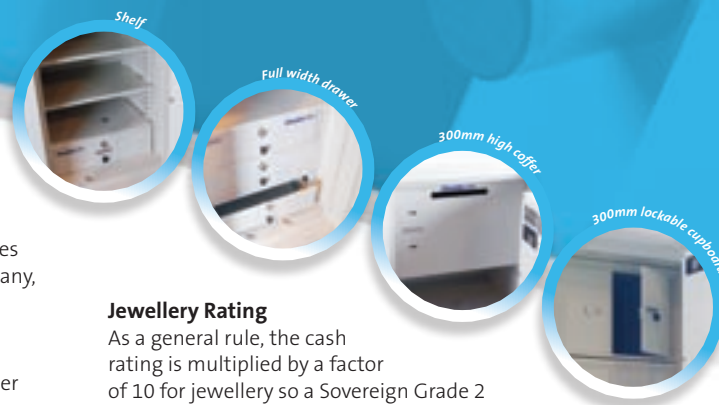

designed & printed by Nest Creative for Gunnebo UK Ltd

Sovereign Safe - upto £150,000 cash protection

Retailers, Banks and Commercial Businesses are constantly reviewing the secure storage of cash within their operations. Faced with increasing threats to security, organisations are constantly striving for products of the highest technical specification.

The Sovereign Safe range from Chubb safes provides the solution. Constructed from the highest specification materials, this graded safe assures the secure storage of up to £150,000. Additionally, the safe can be customised with a deposit facility and fittings to meet customer requirements.

Sovereign Safe upto £150,000 cash protection

QUALITY FEATURES:

Testing

Certified and tested by the leading European testing authorities (ECB-S, Loss Prevention Certification Board of UK, Vds of Germany, CNPP of France) to European standard EN1143-1.

Fire resistance

The Sovereign Grade 2 has gained the NT Fire 017 fire S60 paper standard and offers 60 minutes fire protection for documents.

Manufacture

Manufactured to an ISO9002 accredited quality assured process.

Locking

Grade 2-3 are secured by a single double bitted keylock as standard. Grades 4-6 are secured by dual key locking as standard conforming to EN1143-1. A wide variety of electronic, time and time delay locks can be fitted on special request.

Construction

Constructed from jointless barrier materials encapsulated in an outer and inner steel body for greater protection against attack. Differing security levels are achieved within the Sovereign range by the use of increasingly resilient barrier materials. The doors are constructed using the same barrier materials together with the inclusion of additional protection over the locking areas.

Boltwork

Four way engagement with 32mm moving bolts extending from 3 sides of the door that secure the door effectively into the body. The 3 way moving boltwork provides effective defence against attacks. Up to four anti-explosive devices, protect the boltwork against attack.

Base fixing

A steel bush is welded in the safe base to accept a Chubb-specified high tensile, heavy duty anchor bolt.

Cash rating

Naturally, the cash rating increases with the grade of Sovereign. The recommended cash ratings are £17,500 (grade 2), £35,000 (grade 3), £60,000 (grade 4), £100,000 (grade 5) and £150,000 (grade 6).

Jewellery Rating

As a general rule, the cash rating is multiplied by a factor of 10 for jewellery so a Sovereign Grade 2 with a cash rating of £17,500 will allow for storing jewellery worth £175,000 in domestic situations. Always consult your Insurer for confirmation.

DESIGN FEATURES:

Size

A comprehensive range of product sizes, available in all grades.

Finish

The safes are finished in a light grey texture. Escutcheons, combination dials, keypad and handle are finished in black.

Design

Attractive design with Chubb safes handle for comfortable and smooth operation.

WORKING WITH YOU:

Planning & Installation - The Complete Service

Prior to making a purchase, Chubb safes will guide you through the selection process. This process begins by carefully identifying your security objectives. Once complete, a security solution will be offered together with a free comprehensive installation survey. Chubb safes will then agree with you a flexible installation schedule. The flexibility of the installation process is evidence of Chubb safes commitment towards ensuring the cost and time efficient completion of your purchase.

Chubb safes products are delivered and installed by trained Chubb safes installers. Whatever the delivery environment (e.g. large bank or small office) you can be assured that the installers will take the greatest care. We are also focused on making sure the service on offer is achievable, to the highest standards of workmanship and is promptly completed within the contracted timescales.

Grade 5 Size 7

Grade 2 Size 3 with Front Facing Drawer Trap

CUSTOMISATION:

The Sovereign range is the most customisable product in the Chubb safes portfolio. Depending on grade and size, the safe can have a different lock (e.g. electronic), deposit option (e.g. front facing drawer trap) or fitting (e.g. cupboard) to meet your customer requirements. For further details and technical information regarding customisation please feel free to contact Chubb safes or your local authorised dealer. As always, Chubb safes will endeavour to provide a customisation solution which meets your expectations.

Please note: The Sovereign Safe is supplied empty. Customisation work available at an extra cost.
