

# Phoenix 0420 Series Fire Fighter

Designed to meet the requirements of a large capacity fire resistant safe for residential and business use.

- The modern, compact design and high quality finish disguises a safe that will protect its contents from fire at temperatures of 945°C for 2 hours.
- It will also meet the stringent insurance requirements of an overnight cash rating up to £2000.00
- High security electronic lock programmable with users own code up to 14 digits in length.

# Phoenix 0420 Series Fire Fighter

The body of the 0420 Series safes is constructed from galvanised steel plate with a virtually airtight recessed curvature door. This specially designed door prevents fire and smoke damage to the contents of the safe. Furthermore each safe is insulated with an amazing fire resistant material that actively repels heat.

Every Phoenix Fire Fighter 0420 is complete with shelf units to suit any combination of requirements and maximise its large interior capacity. This attractive safe is ideal for the protection of important documents such as insurance policies, passports and share certificates.

All Phoenix Fire Fighters are manufactured and tested for up to 120 minutes and are approved by authorities around the world.

In addition, Phoenix guarantee to replace completely free of charge, any safe involved in a fire – a demonstration of our faith in this unique product. So relax with the security of a Phoenix Fire Fighter.

● **Dimensions stated as:**

- A External height x width x depth
