

Secure Safe Castelle

for protection of cash and valuables

- **Tested & Certified to £10,000 cash rating**

*For many homeowners and small businesses, the protection of cash and valuables is a major security requirement. Possible solutions would have to offer quality and value inducing features. One solution is the Secure Castelle. This new **lightweight** Grade I safe successfully blends together a wide range of key features. Examples includes certification to EN1143-1, EN1300 approved high security locking, removable shelf and a choice of five sizes. With so many advantages, the choice is all yours...*

Models

- The Secure Safe Castelle is available in five sizes and each size has the choice of key locking or user friendly electronic locking

Construction

- The walls of the Secure Safe Castelle contain a special barrier designed to resist the effects of drills, hammers, chisels and cutting equipment and have an overall thickness of 45mm
- The door is constructed from 10mm steel plate and has specially hardened anti-drill plates protecting the lock, bolts and the boltwork
- The door is secured by a three way moving bolt mechanism
- The door has three horizontal bolts and four vertical bolts, two operating upwards and two downwards
- The bolts are chrome plated and are 25mm in diameter

Locking

- The choice is either a double bitted key lock or a user-friendly electronic lock

Certification

- The Castelle is tested and certified to Grade I according to EN1143-1
- The safes are offered with EN 1300 certified locks

Additional features

- The safes can be anchored using the fixing kit supplied
- All sizes are supplied with a shelf as standard. Size 5 is supplied with two shelves

Design

- The Secure Safe Castelle range is finished in two tone powder finish with a light grey door and dark grey body
